

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTES
The services next Sunday will be at Albert, Alma Mater and Town, at the usual hours.
We are very pleased to announce that on Sunday, May 31st, we shall have a visit from Dr. Lagerquist, a returned missionary from China. He has spent over 30 years there with the China Inland Mission. He was here recently in connection with the W. M. S. Presbytery and many were disappointed in not hearing him. He will take all three services.
At a meeting of the Church Board, it was decided to procure the new hymn books of the United Church if possible. The Rev. J. R. Gerson was asked to canvass the congregation to obtain the names of those who wish to buy their own books. It is the hope of the Board that many will buy their own books and thus relieve the church of a very heavy expense. Perhaps there are some who would be glad to help by paying for one or more copies and leave them to the church for public use. We would be very grateful for any assistance given us in this way.

ANGELICAN CHURCH
The next meeting of the W. A. will be held in the home of Mrs. Fred Higginson on May 26th at 2.30 p.m. A card party will be held at the home of Mrs. Carter on the evening of May 27th at 8 p.m. Admission 25c. Members of the W.A. please bring refreshments.
The next Anglican service will be on Sunday, May 17th at 3 p.m.
A. M. Trendell
(Vicar Walnwright)

WEEKLY REVIEW PROV. MARKETS

BEEF—Reports from Edmonton indicate that the market there has been dull and draggy, with the choice heavy steers bringing from \$4.75 to \$5.00; light steers \$5.25; good \$4.75 to \$5.00; medium \$4.40 to \$4.50 and the common stock at \$3.50 to \$3.75. Choice calves sold at \$7.00 to \$8.00 with common calves making from \$5.00 to \$5.50.
FEEDERS, STOCKERS—Trading in this division has been inactive with feeder steers selling at \$3.50 to \$4.25; stock steers \$3.50 to \$4.00; stock heifers \$3.50 to \$4.00, and stock cows from \$3.00 to \$3.75.
HOGS—At Edmonton quotations were higher, with bacon hogs selling at \$6.50 to \$7.25; select \$7.35 to \$7.75; and butcher offerings \$6.35 to \$6.75, fed and watered basis, on Wednesday's market.
SHEEP—At Edmonton yearlings brought \$4.00 to \$6.00, while ewes were selling at \$4.00 to \$5.00 and lambs \$7.50 to \$8.50.
CREAM—Special, 12¢; first 16¢; second 12¢ to 15¢.
POULTRY—No. 1 Fowl, over 5 lbs., 12¢; No. 1, 4-5 lbs., 11¢ to 12¢; No. 1 under 4 lbs., 9¢ to 10¢; No. 2, 6¢; roosters, 6¢ to 7¢.
EGGS—Extras 11¢ to 12¢; firsts, 9¢ to 10¢, and seconds 6¢ to 7¢.
HAY—Quality of offerings is good. Prices steady, with upland at \$9 and timothy at \$12 per ton on country points.
FEED OATS—Market inclined to be quiet despite the fact that spring wheat has commenced coming in. Receipts only sufficient to handle demand. Price steady at 23 cents per bushel, delivered.
GREENFEED—Good demand prevailing, but offerings are light. It is thought that bulk of this feed is being consumed at point of production. Price steady at \$9 per ton, delivered.
ZBYSCZKO WINS
Several of our sport loving fans attended the wrestling match at Vegreville last Friday evening. The giant Pole, Stanislaus Zbyzsko, pinned the shoulders of the Osage Indian wrestler, Chief McGuire, to the mat in the sixth round, Australian rules. Walter Anderson won from Kid Knutson in the semi-final match. The attendance was not as large as expected. Some who attended from here were very much impressed with the show, others said it was quite good in its way.

NEWS ITEMS FROM JARROW

Mr. Sargent, who has been in the general store for the last four months has moved back to Edmonton. Mr. Adam who was assisting him has also gone to the city.
Mr. and Mrs. Boyd have completed their new house and moved into it this week.
Miss Mary Jamieson left on Tuesday afternoon for a visit with friends in Wetaskiwin.
A very interesting event was celebrated at the home of Mr. and Mrs. Amos Groner on April 26th when a large gathering of relatives and friends congregated to celebrate Mrs. Groner's sixty-eighth birthday, and extend their good wishes for many more to come. Seven children of Mr. and Mrs. Groner, and their families were present and a number of friends. We believe Mr. and Mrs. Groner and son, Clemmy, are moving to the Peace River district in the near future. As old timers of this district they will be very much missed, but the best wishes of everyone goes with them to their new home.
A well attended meeting of the tennis club was held on Tuesday evening at the home of Mrs. Lutton. Mr. K. Morby was elected President for this year and Miss Betty Taylor as Secretary-Treasurer. The courts are being put in good shape and an interesting year is anticipated. The fees were set at one dollar for adults and fifty cents for the high school pupils.
Mr. Sam Tweedy returned to his home here after spending three years in Police Coupee.
Miss Lillian Tweedy, of the Wainwright hospital staff visited at her home here last week.
Mr. Jas. Miller and W. Morgan are in Edmonton on business this week.
The P.A. Girls club took a real hike on Saturday afternoon, walking to Irma, a distance of about eight miles. Eight members, Veda Morbey, Gladys Meakin, Myrtle and Edna Peet, Melva and Lois Coe, Bernice Tweedy, Helen Doherty and their leader, Mrs. Lutton took part in the hike. Supper was enjoyed in the church, as also was the drive home. The girls all felt fine after it and are planning another in the near future.
The Mothers' Day services in the church both morning and evening were very well attended and a pleasing program enjoyed. In the morning the Sunday School teachers and officers had charge of the entire service. The programs sent out for this occasion were followed and some special numbers were given. The smaller classes sang two pretty little hymns, and Elvin Christenson sang most beautifully "I love the name of Mother." Mrs. Brown sang and was enjoyed by all who heard her, and a most enjoyable reading "The Martyred Mother" was given by Mrs. Waite. In the evening, Mrs. Bourne sang "Mother's Prayer" and Rev. Taylor gave a very fine address on Mother's Day.
A number of ladies from town attended the U.F.W.A. meeting at the home of Mrs. Lindquist on Thursday afternoon.
Mr. and Mrs. Royd and daughter of Holden visited with Mr. and Mrs. Boyd here on Sunday.
Mrs. Ward Matthews and infant son returned from Viking hospital on Wednesday.

**IRMA BRANCH No. 112
CAN. LEGION B.E.S.I.**
A Special General meeting is called for 8.30 p.m., May 23rd at Cde Cole's office. Important business.
W. E. Inkin, Sec. Treas.
A Banquet and unveiling of Charter will be held on June 1st. Invitations are extended to all veterans of Irma district and their wives and families, whether members or non-members for the banquet, and this invitation also includes any overseas sister and her husband.
The banquet will be followed by a dance, which is open to the public. Gents 50 cents, ladies kindly bring cakes.
Banquet starts at 8 p.m. and dance at 10 p.m. Watch the paper for further announcements re banquet.
All veterans intending to be at the dance are asked to arrive by May 22nd so that seating accommodation can be arranged.
W. E. Inkin, Sec. Treas. Phone 314

Canada 1931 Conversion Loan

Official announcement is made today of the terms of the Dominion of Canada 1931 Conversion Loan. This issue extends the opportunity to holders of Dominion of Canada War Loan and Victory Bonds now approaching maturity to convert their holdings into bonds extending over a further period of from 15 to 25 years, and marks what may eventually prove to be the greatest financial operation in the history of Canada—the refunding of the heavy volume of financial obligations incurred during the War period. The offer does not involve the raising of any new money. Not a penny will be added to the national debt of Canada in consequence of the 1931 Conversion Loan. It is entirely a matter of exchanging existing bonds for other bonds of the Dominion. A total of more than one billion dollars of bonds reaches maturity within the next 3-12 years. This total is made up of about \$52,900,000 War Loan 5 per cent Bonds due October 1st, 1931; \$73,300,000 Renewal Loan 5 1-2 per cent Bonds due November 1, 1932; \$446,600,000 Victory Loan 5 1-2 per cent Bonds due November 1st, 1932; and \$512,000,000 Victory Loan 5 1-2 per cent Bonds due November 1st, 1934.
Holders of bonds of these issues are being given the opportunity of continuing their investment over a longer term in the direct obligations of the Dominion Government. They will not lose anything in the way of interest payments or income tax exemption by exchanging for bonds of the 1931 Conversion Loan. It is explained that the new bonds will carry coupons entitling holders to receive up to date of the maturity of their old bonds the same interest payments and tax free privileges as they would enjoy if they held their War Loan or Victory Bonds until the actual date of maturity in each case. For the remainder of the term of the 1931 Conversion Loan will carry interest at the rate of 4 1-2 per cent per annum, which, in the opinion of leading investment bankers, is a comparatively generous return in view of the interest rates now prevailing in the London and New York markets.
Conversion applications are now being invited up to a total of \$250,000,000 of the new bonds. It is announced, however, that the Minister of Finance reserves the right to increase or decrease this amount, in his discretion. Subscription lists will open today and will close on or before the 23rd of May, as may be decided by the Government.
Holders of the War Loan 5 per cent Bonds maturing October, 1931, may exchange their bonds for Dominion of Canada 1931 Conversion Loan Bonds maturing November 1st, 1936. The new bonds will not be subject to redemption before November 1st, 1946 but from that date until maturity they may be called by the Government on any interest date on 90 days' notice, at 100 and accrued interest. The first coupon on these bonds will be for six months' tax free interest at 5 per cent per annum, payable October 1st, 1931; the second coupon will be for seven months' interest at 4 1-2 per cent per annum, payable May 1st, 1932. All other coupons will carry interest at the rate of 4 1-2 per cent per annum payable half yearly on the 1st of May and the 1st of November.
Holders of the Renewal Loan 5 1-2 per cent Bonds, maturing 1st of November, 1932, may exchange their bonds for Dominion of Canada 1931 Conversion Loan Bonds, maturing November 1st, 1937. The latter issue cannot be retired before November 1, 1947, but after that date it may be redeemed by the Government on any interest date on 60 days' notice, at 100 and accrued interest. The new bonds will carry regular coupons covering interest at the rate of 4 1-2 per cent per annum payable half yearly on the 1st of May and the 1st of November. In addition to the regular coupons, these bonds will carry three adjustment coupons payable, respectively, on the 1st of November 1931, the 1st of May 1932, and the 1st of November 1932, for additional interest at the rate of 1 per cent per annum.
Holders of the Victory Loan 5 1-2 per cent Bonds maturing the 1st of November 1933 are being offered the opportunity to exchange their bonds for Dominion of Canada 1931 Conversion Loan Bonds maturing November 1, 1958. These new bonds will carry interest at the rate of 4 1-2 per cent per annum from May 1, 1931, payable

NEWS ITEMS FROM KINSALLA

Mumps are still raging in all parts of the district. Those who have recovered are replaced in number by new cases. Even though of a mild type it is causing quite a lot of inconvenience owing to the busy time of the year.
The seeding of wheat is about 100 per cent. finished, and many farmers are busy plowing for oats and barley. Indications point to about the same acreage as last year being seeded to wheat, with a small increase in coarse grains and greenfeed.
Gardens are getting extra attention this spring, and garden stuff and potatoes should be abundant this summer and fall.
Word has been received here by Mr. W. L. Ferries that Mrs. Margaret Brander of Macklin, Saskatchewan, is commencing May 1st, 1931, night. Mrs. Brander was an elderly lady and mother of Mrs. W. L. Ferries, wife of W. L. Ferries, merchant of Kinsella. Mrs. Brander suffered a stroke and for four days and nights previous to her death, remained unconscious. The bereaved have the sympathy of their many friends here in their great loss.
The Kinsella pool room and barber shop is under new management. The new proprietor is Mr. Bruce Davis of Bruce, Alta.
IRMA TIMES
Municipal District 424
It has been decided by the Council that the majority of the Ratepayers in No. 1 Division wish to take the Times, therefore the Times will be sent to them. Any ratepayer of Division 1 who wishes for the Community Press may advise the Secretary of M. D. No. 424, who will cause same to be delivered to him.
A. A. MCGILLIVRAY, K. C.
APPOINTMENT
SUPREME BENCH
Ottawa, Ont., May 3rd.—A. A. McGillivray, K.C., of Calgary, has been appointed to the appeal division of the Supreme Court of Alberta. The new justice, who is a leading Alberta barrister, succeeds Hon. W. L. Walsh now Lieutenant-Governor of the province. The official announcement of Mr. McGillivray's appointment was made Saturday.
EARLY SWARMING
—HOW TO STOP IT
It is all important to have each colony at maximum strength in time for the main honey flow, to do this, careful management of the colonies thru spring and early summer is required. Careful management does not mean constant manipulation but consists of doing the right thing at the right time. All manipulations in the apiary during spring and early summer are for the purpose of producing bees for the spring advance and to prevent them from splitting forces through swarming. The important factors in building up the colonies to proper strength are good queens, abundant food, sufficient room and protection. Early, very early in the spring the Queens start their egg laying and as the spring advances and new nectar and pollen are coming in, the number of eggs laid each day increases until there are between two and three thousand produced every twenty-four hours. Twenty-one days after the first eggs are laid new bees are being added to the colony. New bees cannot be produced unless there is first sufficient room for the queen to reach her maximum egg production and secondly enough food to feed the young bees. Now it is quite possible that a colony may reach a feeling of strength before the main food commences and thus decide upon swarming, during the dandelion and fruit bloom flow. This early tendency is usually of short duration only, is easily controlled by giving the queen sufficient room for egg laying by enlarging the brood chamber and by giving enough super room so that surplus nectar may be stored in supers instead of the brood chamber. Bulletin No. 33 of the Dominion Experimental Farm, Ottawa, contains information on swarm control, write for it.
—C. B. Gooderham, Don. Apiarist

MINUTES OF MEETING KINSALLA M. D. No. 424

Full Council present.
Coun. Bowden, minutes be passed as read. Cd.
M. Ritchie, District Engineer was present and made the following appointments:
Rev. Grant Cap. Grant
Div. 1. \$225.00
Div. 2. 100.00 350.00
Div. 3. 100.00 350.00
Div. 4. 150.00 250.00
Div. 5. 150.00 250.00
Div. 6. 220.00
Total. \$940.00 \$1200.00
Coun. Carter that above apportionment be approved. Cd.
Coun. Murray that application for Billiard license of R. Davis Bruce of Kinsella be approved. Cd.
Capt. Shaw of Salvation Army spoke re work done.
Coun. Pendleton that \$50.00 be granted to Salvation Army for 1931. Carried.
Correspondence re Maintainer from Sawyer-Massey Co., read.
Coun. Pendleton that Maintainer be purchased from Sawyer-Massey Co., for No. 2 Division for \$265.00; \$132.50 to be paid 1st October, 1931, and \$132.50 on 1st October, 1932, interest to commence on 1st October, 1931. Cd.
Coun. Murray, that as Crossing west of Kinsella on C. N. R. is necessary, Council cannot approve of its closing as requested by C. N. R. Cd.
Monthly statement of receipts and expenditures read. Coun. Lissom said statement be passed as read. Cd.
Coun. Murray, that Secretary write matron of St. Anne's Hospital informing her that a small payment will be made next month. Cd.
Coun. Pendleton, that Secretary write N. Trust Co., re Schmitz' land, to ascertain if some plan can be formulated of mutual benefit to N. Trust Co. and M. D. Cd.
Coun. Carter, that Secretary see Mr. Miller re selling of Schmitz' land and the same be on information received. Cd.
Coun. Pendleton, that \$5.00 be allowed for ploughing for trees to be planted in Jarrold cemetery. Cd.
Coun. Bowden, that Mr. A. Arneson be allowed relief to the extent of \$10.00. Cd.
Application for help to construct road into Phillips elevator having been made. Coun. Lissom, that Council do not think they have authority to spend money for road work outside the M. D. Cd.
Coun. Pendleton, that the following bills be passed for payment:
Salvation Army \$50.00
F. H. Pendleton 20.40
E. C. Williams 3.00
Alta. Gov. Tel. 22.05
D. F. Trackell 15.00
Sup. Neg. Children 55.00
P. Training School 15.00
Coun. Pendleton, meeting adjourn till June 25th at Kinsella. Cd.
B. H. Green, Sec. Treas.

NOTICE Re Wednesday afternoon closing.

This store will remain OPEN Wednesday afternoons until a uniform closing law for stores has been established by local statute.
J. C. McFarland & Co.

RESIDENCE BURNS

Fire destroyed the residence of James Young on the S. W. 8-46-8 on Thursday evening at 6 o'clock. Mr. Young was in the field at work and Mrs. Young was in town. Two young children were at home but fortunately were out playing in the yard.

ALBERT HUGHES SUFFERS

On Monday last, while away at the river north of town, Mr. Albert Hughes had the great misfortune to have something strike him in the right eye with the result that it is feared the sight of the optic will be entirely lost.
The sufferer who was alone walked some half mile to his car, and after a drive of fourteen miles came to the hospital where he was immediately attended to by Dr. Wallace, who did all possible to relieve the intense pain.
The patient is getting along as well as can be expected and from present reports the sight of his other eye is not likely to be affected.—Wainwright Star.

REMEMBRANCE DAY

Armistice Day will hereafter be known as Remembrance Day, and will fall on November 11th, separate from Thanksgiving.

GAS

relieved

WHAT most people call indigestion is usually excess acid in the stomach. Food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude help. Use what your doctor would advise.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate with no harmful after-effects.

Once you learn this perfect way you'll never deal in any other manner with the headaches, gas, bloating, nausea, dizziness, indigestion, biliousness, etc., due to an over-acid stomach and bowels.

Be sure to get genuine Phillips'. Look for the name Phillips on the bottle. All druggists sell it—50c.

(Made in Canada)

The Canadian Constitution

Is the constitution of the Dominion of Canada, being the British North America Act, 1867, out of date?

Recent decisions by the higher Provincial courts of law, the Supreme Court of Canada, and the Privy Council all give point to the question.

In other words, is a hard and fast written constitution drafted in the eighteen-sixties of the nineteenth century, long before the days of the automobile, radio, airplanes, and modern big business suitable to our present twentieth century needs? Nay more, is the present distribution of powers and authority as between the Dominion Parliament on the one hand, and the various Provincial Legislatures on the other, the best arrangement under which to carry on our public business today, not to mention possibly even more complicated developments in the years to come?

Unlike Great Britain, which has no written constitution but is governed by a Parliament guided by precedent built upon precedent down through the ages, and which is, therefore, free to meet changing conditions as they change, Canada is bound by a formal document.

Furthermore, among all the self-governing Dominions of the Empire, Canada alone does not possess the power to amend its own constitution.

That power rests solely with the Parliament of Great Britain.

The constitution of Canada was drafted just as the great American civil war was drawing to a close, and the Fathers of Confederation had ever in mind the conflict which, arose in the republic to the south between the Federal authority and the advocates of State rights. The constitution of the United States is founded in the principle of State rights, and the Federal Government has authority in regard only to those matters specifically delegated to that Government. Where no specific delegation of authority is between the Federal and State authorities is made, then the authority automatically rests with the State. The Civil War resulted from the contention of the southern states that the Federal authority was interfering with and usurping certain of their State rights.

The Fathers of Confederation consequently drafted the B.N.A. Act on exactly the opposite principle. In Canada, the rights and powers of the Provinces are distinctly set forth and limited, and all matters not so specifically stated belong of right to the Dominion.

There are, however, certain subjects in regard to which the Dominion is divided, as, for example, incorporation of companies. The Provinces possess the power to incorporate companies for purely Provincial purposes, while the Dominion can incorporate for Dominion purposes. Both are intensely jealous of their rights in this respect, and, as a result, there is continual dispute. For example, most Provincial authorities insist, then the authority automatically rests with the State. The Civil War resulted from the contention of the southern states that the Federal authority was interfering with and usurping certain of their State rights.

There has now arisen a dispute between the Dominion and the Provinces as to which authority can exercise control over radio broadcasting and reception. The Dominion has exercised that right to date, but it is now challenged by the Provinces. Suppose it should be established by a Privy Council decision that the Provinces are in the right and the Dominion wrong, under the old B.N.A. Act, would it be a good thing for Canada to have radio control cut up into nine pieces?

As a matter of fact, in a country of immense distances, divided by natural geographical barriers, it is not one of the handicaps of our national life that, in regard to many matters, the Dominion is handicapped because of Provincial jurisdiction in such matters which would be overcome through unified Dominion control?

On the other hand, there is the tendency on the part of Ottawa to take control over, or interfere with, subjects which are clearly matters for the Provinces. Constitutionally speaking, such a matter as Old Age Pensions belongs to the Provinces, but by enactment the Dominion Parliament decreed that it would control a certain portion of such pensions if the Provinces adopted the plan. Some of the Provinces have done so; others have not. Such a pension system once established by a Province cannot easily be done away with, but there is nothing to prevent the Dominion Parliament from repealing its enactment at any time, leaving the Provinces to face the whole of the financial burden. Similar action has been taken at times by the Dominion in such matters as highways construction, technical education, and grants for this and that. Provinces have embarked on these enterprises, only to have Dominion assistance withdrawn later, to the financial embarrassment of the Provinces.

The question that naturally arises is: Has the time not arrived when the constitution of Canada should be overhauled and brought up-to-date? Should not representatives of the Dominion and of the nine Provinces meet in conference and consider the whole subject with a view to clarifying the atmosphere and removing so many of the causes of present constitutional cases before the courts? And is Canada not just as capable of amending its own constitution as is Australia, South Africa, or the Irish Free State? Or must we remain in the eyes of the rest of the world as the inferior Dominion?

Fortunate Winners

H. P. Underwood, of Palatka, Fla., himself won a golf cup he had sold to a club, although he had never played the game before. Almost as good as the incident at the Horticultural Society Show in Brantford, Ontario, last year. Two sweepstakes prizes were offered by two members of the directorate, and each won the prize donated and designated by the donor.

No Argument

Jones had occasion to reprimand his wife.

"I think, dear," he said soothingly, "that you fish a little occasionally."

"She immediately became indignant. 'Well, I think it's a wife's duty,' was her response."

"Wife's duty?" he echoed, wondering what was coming.

"Yes; to speak well of her husband occasionally," came the reply.

Suffered From Heart Trouble Became Weak and Run Down

Mrs. Wm. Dittie, Glenashfield, Ont., writes: "For a long period I suffered from heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. One day I met a friend and told her of my trouble. She said she had had heart trouble for two years too, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes and after taking them I was again feeling fine, and always recommend H. & N. Pills to anyone complaining of heart trouble."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The H. & N. Co., Ltd., Toronto, Ont.

The Cutworm Menace

Pale Western Cutworm Eggs Are Hatching In Infested Areas

A recent examination of fields in the area expected to be infested with pale western cutworm has shown that in some cases the eggs are beginning to hatch. This is especially true in the areas that have recently been visited with light rains or snow followed by warm weather.

The hatching of these eggs at this time will answer the question that has been in the minds of many farmers regarding the effect of the open winter on the pale western cutworm. There seems to have been a general impression among the people in the infested areas that the peculiar winter would effectively control the cutworm. This was to be accomplished either by the eggs being killed or the eggs hatching during the winter and the cutworms being killed. There is very little evidence from experimental work to show that either is possible.

The presence of pale western cutworms in the field can be easily determined in those fields which have some vegetation such as wild oats, volunteer grains, grasses or weeds present. The young cutworms feeding on this vegetation will eat holes in the leaves and some leaves may be cut off above the ground. The evidence of feeding is much easier to find than the cutworms themselves since they are at present very small and inconspicuous.

Fields which have such vegetation showing signs of cutworm feeding should be tended to crop with the hope of having it mature unless the season turns out to be exceptionally wet. Such fields might better be cultivated thoroughly and worked up for first class summer fallow for next season. Where this land cannot possibly be spared for summer fallow it should be cultivated thoroughly, throughout the early spring and seeded to late barley or oats after the middle of June. The date of this seeding will depend on whether or not cutworms are still active in numbers in the field.

Information regarding the pale western cutworm may be obtained by writing to the Dominion Entomological Laboratories at Lethbridge, Alberta; Saskatoon, or Indian Head, Saskatchewan; Trepank, Manitoba; to the University of Alberta at Edmonton; the University of Saskatchewan at Saskatoon; or the Provincial Departments of Agriculture at Regina or Edmonton.

FASHION HINT

"How to make my old short skirts conform to the new length was a problem to me until I hit on this plan. I dropped the hem, and as the part that had been turned under was darker than the rest, I redyed the entire dress, after having been in the goods, following directions in the Diamond Dyes package."

"I used Diamond Dyes for the redyeing, of course. I have dyed many things with these wonderful colors. They have saved me many dollars and have never failed to give perfect results—smooth, even colors—fast to wear and washing. Friends think my things are new when I redye, or tint them with Diamond Dyes. They do give the most gorgeous colors!"

Mrs. G. C. Lewis, Quebec.

American Penetration

Americanization of British Amusement Industry Is Discussed

Americanization of the British amusement industry was discussed in British House of Commons with half a dozen members hurling troubled questions at Rt. Hon. William Graham, president of the board of trade.

They asked him if he knew the American Telegraph and Telephone Company and the Western Electric group, through subsidiaries, recently obtained control of the Gaumont British corporation, one of the largest producers and exhibitors of motion pictures in England, and were engaged in an Americanization programme.

Choked For Air. Some little irritant becomes lodged in the bronchial tubes, asthma gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

The Miracle Of A Building

"A building is one of our unrecognition miracles. It comes to us out of the unseen. God and man build it together. The wood which forms its substance is a part of the life of great forests; the mind, which sees its form, fashions its visible structure out of invisible material; the hands which build its frame have the skill of creative workmanship; the life it enshelters crowns it with meaning and purpose. Great is the mystery of a building."

W. N. U., 1888

If baby has COLIC

CRY in the night, Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach or the little bowels, colic or constipation, or diarrhea. When tiny tongues are coated, or the breath is bad, whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.

Fletcher's CASTORIA

Deplores Child Labor

Says Canada Not Fulfilling Provisions Of Versailles Treaty

Charges that Canada was not fulfilling provisions to protect labor, as laid down in the Versailles treaty, were made last night by J. B. Woods, Labor M.P. for Winnipeg North Centre, at the annual meeting of the League of Nations Society at Toronto.

Clauses covering an eight-hour day, minimum wages commensurate with the living standards of the country in which the worker lives, elimination of child labor and the right of labor to organize, had not been lived up to, he claimed.

According to the census, he said, Canada employed almost twice as many children as the United States. Of every 1,000 persons engaging in gainful occupations, 23 were under the age of 16, while in the United States only 13 under the age were employed per 1,000.

Alberta Railways Act

Measure To Extend Time For Two Years For Completion Of Northern Road

Third reading was given in the House of Commons to a bill respecting the Northern Alberta Railways Act.

The object of the measure is to extend the time for two years for the commencement and completion of the main line of the Edmonton, Dunvegan and British Columbia railway from Spirit River, Alberta, "by the most feasible route and in a generally westerly direction" to a distance of 102 miles, more or less, to a point in "townships 78 or 79, range 18, west of the sixth meridian in British Columbia"; and for a branch line of the Central Canada Railway from near Grimshaw, Alberta, in a northerly direction to the northern boundary of Alberta.

It Testifies For Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantees. This shows why this Oil is in general use.

Awarded Research Council Bursary

Miss Edith May Lyons, of the department of zoology, University of Manitoba, has been awarded a bursary by the National Research Council of Canada. Miss Lyons is qualifying for her master of science degree this spring, and will continue with post-graduate research work at the University of Toronto next year.

Sweden's railway electrification programme is expected to prevent a national unemployment problem for at least, two years.

MINARD'S LINIMEN

Presented With Horses

Mounted Policemen At Empire Trade Fair At Buenos Aires Receive Gift

Four Royal Canadian Mounted policemen now on duty in the Canadian pavilion at the British Empire trade fair in Buenos Aires, have each been presented with two riding horses for their personal use. A cable to this effect, received at the Department of Trade and Commerce from Buenos Aires, does not make known the donor of this munificent gift but it is believed the eight horses were presented by the Argentine government.

The four members of the R.C.M.P. sent to the trade fair are: Sergt. J. R. Paton, M.C., of Victoria, B.C.; Constable Carstairs, of Medicine Hat, Alberta; Constable Carmichael, and Constable C. G. Fairman, both of Ottawa.

Previous reports from Buenos Aires said the four "Mounties" had captured the popular fancy in Argentina, a country noted for its horsemen.

Recipes For This Week

(By Betty Barclay)

COCOSUT CABINET PUDDING

5 egg yolks, slightly beaten.
5 tablespoons sugar.
1/4 teaspoon salt.
2 cups milk.
1 tablespoon gelatin.
1/4 cup milk.
1/4 teaspoon vanilla.
Lady fingers or strips of cake.
1 1/2 cups apricots, sliced.
1 cup coconut, southern style.

Combine egg yolks, sugar and salt with 2 cups milk and cook in double boiler until mixture coats the spoon, stirring constantly; soak gelatin in cold milk 5 minutes and add hot custard. Stir until gelatin dissolves. Add vanilla. Strain custard into mold, filling 1 1/2 inches deep. Chill until firm. Dip lady fingers into part of custard mixture and line sides of mold. Fill center of mold with alternate layers of apricots, remaining custard and coconut. Chill until firm. Unmold. Garnish with additional strips of custard, whipped cream, and apricots of angelica. Serves 8.

Wood Buffalo Park

More Than 1,500 Buffalo Counted and Photographed in Aerial Survey.

More than 1,500 buffalo were counted and photographed in the Wood Buffalo Park, at the junction of the Saskatchewan-Alberta boundary and the North West Territories, by the aerial survey of the grazing lands of the far north, just completed. There was no attempt to photograph the whole herd in this census, which was in the nature of a preliminary test and experiment.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

B.C. Peach Culture

It is expected that about 20,000 new peach trees will be planted in the Oliver district of British Columbia this year.

Development Of

Canada's Water Power

Figures Show Capital Invested Runs Into Millions

The capital investment in water power development in Canada as estimated by the Dominion Water Power and Hydrometric Bureau Department of the Interior, to amount to over 1,390 million dollars on January 1, 1931. The last year for which official figures are complete for all industries is 1929, and these show that the amount of capital invested in water power was exceeded only by that in agriculture and in steam railways.

May Harness Natural Gas Going To Waste In Turner Valley To Generate Electric Power

Millions of feet of natural gas now going to waste every day in the Turner Valley, Alberta, may be harnessed to generate electric power for industrial and domestic purposes. A proposal to do this has been submitted to the Alberta Government by a British corporation, according to press reports. It is stated that the corporation offers to spend \$10,000,000 on the project at the outset and a total of \$100,000,000 within 15 years and to begin work on the construction of a plant within 90 days from the time the approval of the Alberta Government is given to the proposal. The plant will be capable of generating 70,000 horse power of electricity within a year.

The plan for this new project, as outlined, is to collect the waste gas in Turner Valley into one pipe line running to the power house where it would be used to turn specially-designed turbine wheels for the generation of electrical power for which a market would be secured in industrialization of southern Alberta. The power house would be located at a point probably 30 miles east of Turner Valley and it would not depend alone on gas from Turner Valley but would utilize also gas from other fields. The corporation proposes, it is stated, to offer the electric power generated for sale in the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, and also in the border states of the United States. The Government of Alberta is asked to pass legislation compelling all oil companies or individuals, whose gas is escaping and not being put to use, to supply the corporation with such gas at a price to be fixed through the Public Utilities Board. In consideration for the establishment of such a plant as proposed, an exclusive franchise for a period of 99 years to the corporation is requested. Provision would be made, if desired, for the Alberta Government to take over the plant on an equitable basis at some time in the future.

The scheme for utilization of the Turner Valley and other waste natural gas would produce electric power at a cost of about three-tenths of a cent per kilowatt-hour.

FARM MANAGER

A. R. Judson, who is farm manager of the Dauphin zone for the Canada Farm Finance Corporation.

Saskatchewan Coal Mining

New Regulations Governing Leases Are Made Public

Reduction in the maximum, and increase in the minimum area allotted to any one lessee is provided for in the new coal mining regulations as published in the April 15 issue of the Saskatchewan Gazette.

Under the old Dominion government regulations the maximum area allowed was 2,560 acres, while the minimum was 20 acres. Only one location was allowed to any one person.

The new regulations provide for a maximum area of 640 acres in any one location, but provide for three locations to a person. Thus the total area provided for under the new scheme is 1,920 acres. The minimum size of a location is 40 acres.

There are little other changes in the regulations, except that under the present plans, any lessee must have a clear sheet with the department before he can obtain a new location or have an assignment registered.

Trans-Canada Highway

Desirability Of Linking Up East With The West Is Pointed Out

The desirability of linking up the incomplete portion of the trans-Canada highway is the subject of a letter sent to Premier R. B. Bennett recently by the western division of the Canadian Automobile Association.

The association stresses the fact that hundreds of thousands of Canadians, regardless of politics, realize the vast possibilities in the completion of the highway at the earliest possible time, because it will provide an artery for a tremendous volume of tourist traffic which now must make use of the United States highways in their passage from east to west.

"There is no estimating the number of Canadians," the letter reads, "who are looking to the day when the Big Bend connection between Revelstoke and Golden, B.C., will be completed. But they are more in doubt in regard to the 500-mile span in western Ontario, which may be regarded as the bridge between the east and west."

Canadian Zinc To Europe

Twenty-Three Cars From Northern Manitoba Shipped To London and Hamburg

The largest shipment on record of made-in-Canada electrolytic zinc is en route from a large smelting plant in Northern Manitoba to London and Hamburg. The shipment was composed of a 23-car train destined to Halifax, Nova Scotia, thence overseas. Fifteen cars are billed to London, and the remainder to Hamburg. Since the first shipment left the smelting plant at Flin Flon last November, no less than 247 cars of blister copper and zinc have been shipped. Of this total 99 cars have been blister copper and 148 have been zinc. Most of the shipments have been consigned to eastern Canadian centres and to the United States.

Grist Mill For Moose Jaw

Western Grist Mills Limited of Moose Jaw has started the erection of a 100 barrel mill and expects having it completed in time to handle the 1931 crop.

Trade With China

Canadian Products and Exporters Held In High Regard In Shanghai

Canadian trade with China has suffered less than that of most other countries from the general world depression, according to Lieutenant-Colonel L. M. Cosgrave, Canadian trade commissioner at Shanghai, who is in Vancouver to spend several weeks conferring with importers and exporters and to make an intensive study of coast and western products suitable for the Chinese trade.

Canadian products and Canadian export houses are held in high regard in Shanghai and other parts of China. Their standing is at least equal to that of any foreign country and there is a distinct feeling of friendliness which augurs well for the future, Colonel Cosgrave reports.

"In the past six months there has been more inquiry for Canadian products than in any six months in the past five years. With conditions as they are this can only be regarded as most encouraging," he said.

Frog Farm Builds Up World Trade

Was Started Eight Years Ago On Outskirts Of Vancouver, Washington

A frog farm on the outskirts of Vancouver, Washington, has proved to be such a success that the owner is called upon to deliver frogs faster than the frogs come up out of their winter hibernations in the mud to be shipped to New York or perhaps Australia.

Since the farm was started eight years ago, two of the biggest patrons have been Florida and Louisiana, which were former prolific in frogs. Much of the trade of the farm is in sending pairs of mature frogs for the purpose of starting other frog ponds.

Superfluous Words

"Her observations covered 145 schools in fifteen different States."

"Why 'different'?"

"Personally, I don't think so." Why "personally?" Do you mean that officially you do think so?

"This line is to be linked up with that one." Why "up?"

National Research Council Investigates Problem Of Effective Vaccine Against Tuberculosis

CANADA FARM FINANCE

N. J. Siemens, farm manager of the Brandon zone of the Canada Farm Finance Corporation.

Preparing Attractive Display

Quebec Is Taking Large Space At World Grain Show

His Excellency the Governor-General has consented to act as chief patron of the world grain exhibition and conference which will take place at Regina in the summer of 1932.

One of the most attractive displays in the educational section of the exhibition will be that from the Province of Quebec. It has been decided to take a space of 200 feet frontage in the Exhibition building in order to give the thousands of visitors an idea of the agricultural activities of Quebec.

The centre feature of the exhibit will be a Quebec farm, complete with buildings, live stock, fields, sugar bushes, etc., flanked on either side with exhibits of natural resources of the province, including mineral, lumber, power development, handicraft and manufacturing products.

Argentina is the sixteenth country to officially accept the invitation of the Canadian Government to attend the Exhibition and Conference. The complete list of participants at present is as follows: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, Spain, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina.

No Hearsay Evidence

Court Case That Was Settled In Common Sense Way

It is well to see things done in a sensible way. To illustrate: In an Eastern city there was a queer case in court. One farmer claimed that a fire started in the bush by his neighbor, had spread to his property and had spoiled the land by burning off the top part of the soil.

Instead of arguing for days, officials, solicitors, and witnesses, took a trip out to the property in question, and along with them they had spades and shovels. They actually went to work and gouged holes in the ground to see if the damage was as serious as claimed, and to find out exactly what had taken place. Returning to court, the decision was made that the fire damage claim had not been sustained.

That was direct action and common sense.

Not Looking For Miracles

Western Farmers Will Fight Way Back To Prosperity

"Twenty-five years from now we will be growing a good deal more wheat than today, and selling it in the world markets," said Hon. Duncan Marshall, one-time minister of agriculture in the Alberta Government, addressing the Eastern Canada Livestock Union at Toronto.

"Taken as a whole, I can say to you that the farmers in the Canadian West are not looking for any miracle to happen, or anybody to turn the country's economics upside down. They are going to win through to better days, as they have fought through earlier depressions," he declared. Mr. Marshall had just returned from a month's motor tour through the West.

Did Not Choose To Speak

A young woman who wished to engage Calvin Coolidge in conversation, when he was president, told Mr. Coolidge that her father had laid a wager that she couldn't get him to utter three words. She expected that this would start him talking. But he said quietly: "Dad wins!"

"According to the committee of the National Research Council on tuberculosis research, much work remains to be done before the problems of an effective vaccine against tuberculosis are solved."

This statement was issued following an important conference on the subject in Ottawa, in which the leading doctors specializing in the study of tuberculosis took part.

The statement set forth that the committee agrees "B.C.G." confers a degree of resistance to tuberculosis but the nature and extent has not been clearly demonstrated. Further studies are to be conducted to clear up these points definitely. About 1,000,000 infants have been vaccinated against tuberculosis. "B.C.G." is the vaccine of the Pasteur Institute of Paris.

The statement describes the work accomplished as follows: "B.C.G." (named after Prof. H. Calmette, the director of the Pasteur Institute and his colleague Guérin), has to date been used in various countries to vaccinate a total of approximately 1,000,000 infants against tuberculosis. In the effort against bovine tuberculosis it has been put forward as a preventive measure that would eventually make unnecessary the expensive method now commonly employed of destroying animals reacting to the tuberculosis tests.

"Canadian researches on tuberculosis have been widely discussed in both Europe and America, particularly those of Dr. E. A. Watson, of the animal diseases research station, Dominion Department of Agriculture, at Hull, Que., who has challenged claims put forward by Calmette; Dr. A. C. Rankin, of the University of Alberta, and Dr. J. A. Bauldin, of the University of Montreal, whose work has tended to support Calmette's contentions, and Dr. G. B. Reed, of Queen's University, Dr. Watson and Dr. Rankin have carried on extensive experiments with cattle, and Dr. Bauldin has supervised the inoculation and study of infants in Montreal. An important contribution to the knowledge on the subject and will publish his results shortly."

Dr. R. S. Ferguson, director of the Fort Qu'Appelle, Sanatorium, Fort Saskatchewan, reported on the tuberculosis investigation that has been carried on under the auspices of the committee among the Indians of that district. He said that a family history of the Indians showed that within three generations there had been deaths from tuberculosis in nearly every family on the reserve. The worst tuberculosis epidemic was between the years 1880 and 1905. To indicate the effectiveness of the work that was now being done, Dr. Ferguson reported that, while the incidence of tuberculosis among the Indians in 1928 was twenty times that of the surrounding white population, it was today only thirteen times, a reduction of one-third during that period.

Dr. H. M. Tory presided at the conference and 25 men and women engaged in the study of the disease took part.

Increase In Poultry

Value Of All Poultry In Canada Placed At Fifty-Four Million Dollars

Poultry keeping is on the increase in Canada. The total number of poultry on the farms in the Dominion at the end of last year was estimated at 60,795,000, of which 56,247,000 were hens and chickens; 2,399,000 turkeys; 1,160,000 geese and 889,000 ducks. The value of all these birds is placed at \$54,852,000. Two years ago the total number of poultry was \$3,779,000. Poultry are successfully raised commercially in all of the provinces of Canada. The principal centre of the industry is the Province of Ontario.

"Do I know the business? Rather. I was very useful in the last place—it was I who used to call out to the others, 'Hush! Here comes the boss.'"
—Fergus Galloway, Toronto.

Blind Will Benefit

By New Invention

Instrument Produces Raised Letters From Ordinary Pages

Robert E. Naumburg, of Cambridge, Mass., has demonstrated for the first time a "printing visagraph," an instrument that produces magnified, raised letters from the pages of ordinary books.

The visagraph reproduces large, embossed letters on a wide roll of thin aluminum foil, with the result that the finished product corresponds in some respects to the Braille system. Naumburg estimates his machine will increase the reading range of the blind a thousand-fold.

A Brain Invigorator

A tube a tired business man can slip over his head to give his brain cells an invigorating diet of electricity was one of the wonders of science presented to the convention of the American Electro-Chemical Society at Birmingham, Alabama. The same tube, J. A. Lee, connected with a trade publication, explained, can be used to reduce fever.

A Quick Thinker

Farm labourer, to hiker crossing a field: "Didn't you see the notice saying pedestrians ain't allowed here?" Hiker (with great presence of mind): "I'm not a pedestrian. I'm a Congregationalist!" Labourer: "Oh, that's different. You can go on."

Manager: "I have just signed a contract for you to appear against Smith."
Champion: "I can't box him—we are enemies!"—Buen Humor, Madrid.

W. N. U. 1888

Good Seed Pays For Itself

Grain With Fine Record Of Production Finds A Market

We have heard of an Eastern farmer who sold a great deal of his wheat for two dollars a bushel. We did not hear the price at which he sold a great many of his oats, but the figure was a decidedly fancy one for this season.

The secret? He sold wheat and oats with a fine record of production behind them. Nor was that all; he found out customers who wanted a really good thing and had sufficient cash to pay for the same.

This year as in other years, the man with a really good article to sell who makes his article known to the public has little difficulty in making good sales. There is still another secret in this affair. This farmer kept his eyes open for good seed himself and bought liberally of varieties that had a record of achievement behind them.

Measurements Accurate

Geodetic Survey Of Canada Made By Line And Triangles

Accurate measurements can be made across country by means of a measured line on the ground and a system of triangles. The triangulation of the Geodetic Survey of Canada, Department of the Interior, is conducted with the greatest degree of accuracy. Its usage involves the determination of the size and shape of the earth, the location of international and provincial boundaries, and furnishes points of control for the general maps of the country. Adjusted geodetic points in great numbers are available to the public in every province of the Dominion.

MERINGUE OF RICE

Put a cupful of rice into a pint of boiling water, and when the water has boiled away add a pint of milk, a piece of butter the size of an egg, four eggs and the grated rind of a lemon. Butter a pudding dish, pour in the mixture and bake until it sets. Beat the whites until dry, add half a cup of sugar and a tablespoon of lemon juice. When pudding is done spread the frosting over it and brown light on top.

The American golden plover, which breeds in Arctic America, migrates the entire length of North and South America, wintering in Patagonia.

FASHION

No. 273—For Smart Matron. This style is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure. Size 36 requires 4 1/2 yards of 39-inch material with 3/4 yard of 10-inch lace and 3/4 yard of 35-inch lining.

No. 232—Jacket Suit. This style is designed in sizes 14, 16, 18, 20 years, 36 and 38 inches bust measure. Size 16 requires 3 1/2 yards of 39-inch material for jacket and skirt with 1 1/2 yards of 39-inch material for blouse and jacket bands.

No. 244—Expresses Good Taste. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 1/2 yards of 39-inch material.

No. 661—For Smart Junior. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards of 39-inch material with 3/4 yard of 10-inch lace and 3/4 yard of 35-inch lining.

AN OPPORTUNITY TO HOLDERS OF EARLY MATURING
CANADIAN GOVERNMENT BONDS
 TO EXTEND THE TERM OF THEIR INVESTMENT IN
THE PREMIER SECURITY IN CANADA

GOVERNMENT OF THE
DOMINION OF CANADA
1931 CONVERSION LOAN

The Minister of Finance of the Dominion of Canada offers to holders of the undernoted Dominion issues the privilege of exchanging their bonds into longer dated issues, in the following terms and under the following conditions:

¶ This offer affords to holders of bonds eligible for conversion, the same interest payment and tax-free privileges, for the life of and as contained in the present bonds, and the opportunity of extending the term of the investment at 4½% per annum. ¶

WAR LOAN 5% BONDS MATURING 1st OCTOBER, 1931—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1936, bearing interest from 1st April, 1931. The first coupon will be for six months' tax-free interest at the rate of 5% per annum payable 1st October, 1931; the second coupon will be for seven months' interest at the rate of 4½% per annum payable 1st May, 1932; thereafter to maturity interest will be payable half-yearly at 4½% per annum.

RENEWAL LOAN 5½% BONDS MATURING 1st NOVEMBER, 1932—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1937, bearing 4½% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds three adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, for additional interest at the rate of 1% per annum.

VICTORY LOAN 5½% BONDS MATURING 1st NOVEMBER, 1933—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1938, bearing 4½% interest payable half-yearly from 1st May, 1931. The first five interest coupons, being those to and including 1st November, 1933, will be tax-free. There will also be attached to these bonds five tax-free adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932 and 1933, for additional interest at the rate of 1% per annum.

VICTORY LOAN 5½% BONDS MATURING 1st NOVEMBER, 1934—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1939, bearing 4½% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds seven adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, 1933 and 1934, for additional interest at the rate of 1% per annum.

Conversion applications in the terms of the foregoing are invited to a total of \$250,000,000. The Minister of Finance reserves, however, the right to increase or decrease this amount at his discretion.

Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by recognized Canadian Bond Dealers and Stock Brokers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the loan. Applications will not be valid on forms other than those printed by the King's Printer.

The subscription lists to the foregoing will open on 11th May, 1931, and will close on or before 23rd May, 1931, at the discretion of the Minister of Finance.

VIKING

Work was commenced on improve-
ments to the Viking Co-operative
creamery building, under supervision
of Mr. J. J. Leeder, the contractor.
For some time past the management
has found that some additions have
to be made on account of the increas-
ing amount of cream being received,
and the result is that the drive way is
being enlarged, an addition made to
the weigh stand, the vat room and the
can room. When completed it will
enable the staff to handle the cream
with more dispatch than ever. The
creamery looks forward to breaking
all records this year.

The baseball season was officially
opened at Holden on Tuesday even-
ing when the newly organized Viking
team played the Holdentides before a
large crowd. The game lasted seven
innings before being called on account
of darkness. Game ended in a 4 to 4
tie. Our boys showed up well with
only a little practice. Doc Richard-
son pitched a good game. Bob Mc-
Athey made a hit every time to bat.
The line-up was Richardson, pitcher;
Kortzman, catcher; Jones 1st; L. Mc-
Athey, 2nd; Bob McAthey, shortstop;
J. McAthey, 3rd; Rasmussen, left
field; H. Hilliker, centre field; Moore
right field; Kastor, manager. A re-
turn game will be played at Viking on
Tuesday, May 19th, at 7 p.m. Every-
body turn out.

The regular meeting of the senior
C.G.I.T. was held Thursday evening
in the church hall. The devotional
period was conducted by Lillian
Nundahl and Annie Stock. The in-
tellectual period consisted of two
readings from "An Open Door" by
Margaret Burness and Mabel Crouse.
In the business period arrange-
ments were completed for a silver tea
to be held on Saturday, May 16th in
the Church Hall. Various plans were
also discussed for a final meeting
which would suitably celebrate the
conclusion of a successful year. The
group went outside in order to play
a couple of games and the meeting
ended with the singing of Taps.

At a sitting of court here on Mon-
day afternoon at which travelling
magistrate A. I. Millar, of Selkirk
presided, Mike Miciak and Anthony
Rabibier, of Bruce district, were found
guilty of attacking and doing personal
injury to two young sons of John
Zak, ages 14 and 10 years. Miciak
was found guilty and fined \$20.00 and
costs or three months in jail, and
Rabibier \$10.00 and costs. C. G. P.
Pavia, local barrister, assisted the crown
in prosecuting.

Postmaster B. Hilliker is having
the postoffice premises in the Hilliker
Block enlarged to give added accom-
modation and service to the public.
Considerable more space is being
available to the box holders and gen-
eral delivery patrons, and also the
sorting and mail receiving room en-
larged. The postmaster informs us
that Viking now has larger postoffice
quarters than any town between here
and Edmonton, including many towns
on the C. P. R. The front door is
kept open evenings for accommoda-
tion of box holders. The public will
no doubt be pleased with the new im-
provements.

The Vegreville Little Theatre play-
ers presented a program of three one
act plays in the Elks hall here on
Wednesday evening of last week. The
cast was well chosen and the
plays were exceptionally well acted.
A fair sized crowd greeted them and
were highly delighted with the enter-
tainment.

The Vegreville Elks band and or-
chestra came along and furnished
music for the dance after the show.
The band endeavored to give a few
selections on Main street but the
high wind that was blowing at the
time made this feat very difficult
and their efforts were wasted on
the (desert) air.

As an aid to unemployment in
Sweden, 49,000 workers held a dem-
onstration on May 1st asking for a
five hour day with same pay. All but
sixteen firms in the country granted
the request.

The Senior C. G. I. T. announce
their Springtime Tea to be held in the
Church Hall on Saturday, May 16th,
beginning at 3 o'clock. Everybody
invited.

The Minister and Choir of the United
Church here are exchanging ser-
vices with the Minister and Choir of
the Killam United Church for Sun-
day evening worship.

The Juvenile Band led by band-
master K. Hilliker, gave a concert
on the Main square Monday evening.
Their selections were very well play-
ed. As there has been no previous
notice given of their appearance only
a small crowd had the opportunity of
enjoying their music.

Our spring subscription campaign
is on. A majority of the subscrip-
tions to The Viking News fall due
this month and next, payment of
which is now in order.

We are informed that N. C. Gram-
ham's name has been added to the
executive of the Camrose Federal
Constituency Conservative Association.

GOODWILL DAY, MAY 18th
Goodwill Day is May 18th and com-
memorates the opening of the First
Peace Conference at the Hague, which
took place on May 18th, 1899. This
was the first gathering of the nations
in time of peace for the consideration
of means of settling international dif-
ferences by peaceful methods. A
German woman, Frau Selenka sug-
gested that this day be observed as a
world peace day. The plan was at
once taken up by the International
Council of Women The World Feder-
ation of Education Associations,
founded in 1923 by teachers of Amer-
ica, Europe and the Orient, recom-
mends the observance of this day in
schools throughout the world. As a
result, May 18th is now celebrated as
Goodwill Day in thousands of schools
and lessons are given on World Friend-
ship, plays pageants and songs car-
rying out the spirit of the day.
Germany, under the Treaty of Ver-
sailles, accepted the provisions for
drastic disarmament, "in order to
render possible the initiation of a
general limitation of the armaments
of all nations." Because of the failure
thus far of the nations to begin sub-
stantial reductions of their armaments
Germany is beginning to demand the
right to re-arm on the ground that
the other nations have failed to car-
ry out their disarmament pledges. Un-
less real progress soon begins in the
general reduction of armaments, fears
will be aroused and the coming of the
world justice and peace will be long
delayed.

An International petition for World
Disarmament is being circulated sim-
ultaneously, not only in English,
French and German, but in many lan-
guages and countries, and it is to be
presented to next International Disar-
mament Conference which is to
meet in Geneva in February, 1932.
The key note of the declaration is:
The Nations have renounced War; Let
us also renounce the Instruments of
War. Competition in armaments is
leading all countries to ruin without
bringing them security. Wars in fu-
ture will be wars of indiscriminate de-
struction of human life. Governments'
assurances of peaceful policy will be
valueless as long as those measures
of disarmament are delayed that
should be the first result of the Pact
for the Renunciation of War.

In England alone 200,000 signatures
have been obtained already and they
are coming into the office of the
Women's International League at the
rate of 2,000 a day. The Dominion
Board of the W. M. S. of the United
Church has endorsed the petition and
will have it sent forward to all local
organizations of the society. In Win-
nipeg 1500 petition forms have been
sent out. In Ontario at the Annual
Convention of the United Farmers the
petition was endorsed and sent out to
500 farmers' clubs throughout Ontar-
io. The petition will be circulated
among all the W.C.T.U.'s of the Do-
minion. Unless there are millions of
signatures from all over, the petition
will not be successful. It is the or-
dinary people of the world who bear
the brunt of war. It is they who were
disillusioned by the Great War, and it
is they who have the opportunity of
supporting this declaration—men and
women over 18 years of age. A mil-
lion or several million voices the world
around clamoring for disarmament
could make themselves heard.
"Join in this World Campaign."

RURAL CREDITS

IN MINNESOTA
Yes, taxes may be increased. When
13,000,000 of dollars is lost to the
state through the manipulation of the
state rural credits bureau under a
Republican administration somebody
must pay the fiddler.—Milaca Times,
Minnesota.

Most Farmers Want Good Chicks

Here's their opportunity to get the Best!

Alberta farmers have had wonderful success
with the Chicks and other Poultry Stock purchased
from us.

We are booking orders for Hatching Eggs, day
old Chicks, Pullets and Breeding Stock from the
five popular breeds:

S. C. W. Leghorns **S. C. R. Island Reds**
Light Sussex **Barred Rocks**
Wyandottes

S. C. W. Leghorn Chicks for May \$13.50 delivered
Sussex Chicks for May \$16.00 delivered
Rocks, Reds and W. Wyandottes \$14.00 delivered

Write for our illustrated Catalogue with information of care and
feeding stock. Also ask for information concerning group orders
and our special discount prices in consideration of times.

For Mental Health In Canada

Increased Facilities For Care Of Sub-normal People Is Urgently Needed

(By John Burke Ingram)

If all the insane people of Canada were brought together in one place they would form a city larger than Kingston or Kitchener. According to recently compiled figures, there are 29,529 patients in Canada's mental hospitals. These figures include, of course, those suffering from mental diseases. Year by year their numbers increase. The Canadian people have invested nearly \$75,000,000 in buildings and equipment, and spend about \$10,000,000 each year in maintenance costs. In every province the hospitals are crowded to capacity; and it is safe to say that there are as many persons attempting to carry on in the community who are in need of treatment as there are in the hospitals at present. There is a crying need in Canada for the establishment of psychopathic hospitals and outpatient clinics to deal with these cases before they become chronic and beyond hope of improvement.

"Many people are more or less familiar with insanity, but comparatively few realize the difference between the insane and those persons who are known as mental defectives. A sufficient definition for the present purpose is that insanity may be termed a "prolonged departure from the individual's normal standard of thinking, feeling and acting; while a mental deficient is a person whose mind, through hereditary causes, or through pre-natal or infantile misadventure, has failed to develop normally."

Mental defectives, or defectives, range in intelligence from the idiots and imbeciles, familiar to all, to the more nearly normal morons, or feeble-minded persons whose presence in the community is not so readily detected.

These latter are the great social misfits. They contribute out of all numerical proportion to pauperism, delinquency, criminality, promiscuity and illegitimacy. As children they are "backward." They are slow in learning to walk and to talk. In school they are from two to four years behind other children of the same age. Shamed of their non-progress, they eventually drop out of school and go into the world unequipped to meet the demands to be made upon them as adults. As persons, they are adult in size and years; it is not generally realized that they are not responsible for their actions; and it is not strange that they fail to meet the requirements of organized society and repeatedly find themselves in the jails, the reformatories and the houses of refuge.

Thanks to the efforts of the Canadian National Committee for Mental Hygiene, pioneer work is being successfully done towards educating mentally deficient children at a sufficiently early age to permit them to be trained to a certain facility in one of a number of handicrafts in the hope that they may become self-supporting in their adulthood. It is surprising to learn that many children who might never do more than learn to sign their names and do simple addition, and subtraction can be so trained.

The Canadian National Committee for Mental Hygiene, having no other excuse for its existence and no ulterior end to serve, has taken upon itself the task of bringing home to the people of Canada a realization of the supreme importance of mental health, with the hope that through public demand governments will be stimulated to provide these increased facilities that are now so badly needed.

Horsepower Going To Waste

Electricity Could Be Produced At Grand Falls In Labrador

Four million horsepower of electricity was "going to waste" at Grand Falls, in Labrador, Sir Wilfred Grenfell, famous medical missionary to the coast of Labrador and Northern Newfoundland, declared during a lecture at Montreal. Sir Wilfred said he was attempting to demonstrate to governments that Labrador may be rich in minerals and other natural resources.

Air Telegram Service

Passengers on the German Lufthansa service between Berlin and Vienna can now hand in telegrams for transmission from the airplane in which they are travelling to ground stations. This service was inaugurated on Feb. 2, with telegrams sent to the Ministers of Communications and Posts.

The trouble with a great many men is they are never satisfied with wasting their own time.

With the exception of ourselves no one ever does things as they should be done.

Village Of Blind People

Nine Hundred Live Hidden Away In Mountains Of Mexico

A village of 900 people, all totally or partially blind, who never venture from their huts until after sundown was described by Dr. Niguel Bustamante, Mexican delegate, to the second Pan-American Conference of Directors of Health at Washington.

The village is Tiltipee, in the state of Oaxaca, Mexico. Hidden away in the mountains, it is reached only by a few horse trails. The malady which blinded the inhabitants is known in the medical world as onchocerciasis.

Tests have shown, Dr. Bustamante said in his speech, that an insect is the cause of the blindness. Eradication of this insect, he added, has given hope in the fight on the malady, of which little is known. There are 20,000 such cases in Mexico.

Aviators Thrill Spectators

Exhibition Of Spectacular Parachute Jumping Staged At Ottawa

As nonchalance as bathos, taking a morning plunge, 12 officers and non-commissioned officers of the Royal Canadian Air Force recently tumbled into space from a height of 2,000 feet in one of the most spectacular exhibitions of parachute jumping ever staged in Canada. The display was remarkable in that every flyer who went aloft completed what is probably the most hazardous part of the Air Force training with landings that were perfect or near perfect.

Of the dozen daring aviators who performed the feat, ten were negotiating their first parachute leap.

A Magic Soap

How the Fairy Queen's Christening Gift Was Found

Once upon a time the Fairy Queen was asked to be God-Mother to a very important Baby Princess and wanted an especially nice Christening Gift. So she sent her five cleverest Elves to fly all over the world in search of wonderful scents and rare perfumes and rich oils for a magic soap that would make the Princess as lovely as the day is long.

Well the first Elf flew to France, and Algeria, and Bulgaria, where the flowers grew and asked them to give their prettiest roses for the Magic Soap. And the roses showered their sweet petals into a big sack the Elf had brought with her, all ready to be scrunched up and give a lovely perfume.

The second Elf flew to Africa, and there she made friends with the king's daughter, who gave her clove and Vetiver—that is a scented root—rather like our sweet grass.

And the third Elf went to India, and found Patchouli—a plant whose leaves smell something like mint and the pretty yellow wood of the sandalwood tree, which is very fragrant.

But the fourth Elf had the most dangerous time, for she daintily flew to an island near Italy called Sicily, where there lived some fierce fruit-eating Bergamots who were very nasty and disagreeable, but who nevertheless were exquisitely perfumed cats. The Elf crept up when the whole treacherous were asleep and snipped off a bit of their coat of robe and there where it would not be missed—and was just tiptoeing away when a big fat Bergamot awoke and with a great yell prepared to fall on her and crush her. But the Elf called to the Flower Fairies to help her, and they seized her quickly and hid her beneath a toad-stool till the Bergamots had gone to sleep again when she scampered off home with her treasure.

On her way she met the fifth Elf who had clear golden cocoons all over her body, and sticky scented gums from the East Indies. And when they all arrived back they found that the Palace Fairy Cat who wanted to help his mistress had been all the way to Abyssinia (that is Bilahy Stow) to see the cousin of his, the Civit Cat, who carries a delicious perfume with him in a tiny bag and had gladly given it to Pussy; and Civit had kindly introduced the Fairy cat to a Chinese friend of his, the Musk Deer, who had some rare scent in a secret sack under his tummy which she also gave for the Christening Gift.

How pleased the Fairy Queen was! Quickly she carried all the marvelous things to a Mortal friend of hers who was a soap maker and he worked with his helpers day and night and produced the most wonderful soap he had ever made just in time for the Christening.

And the Princess grew up so beautiful that she married the richest and handsomest Prince that ever was, and on her wedding day when the Fairy Queen came to see her, she said: "Dear God-Mother, couldn't you ask your friend the Soap-Maker to make heaps and heaps of my wonderful soap and give it to all the little folk and all the big folk in the world. I feel so selfish enjoying it all myself."

"That is a good kind God-Daughter," said the Fairy Queen—and she told the soap maker, who promised to do as the Princess wished. And he went on making the Magic Soap all his life, and after that his son and his grandson went on making it. And do you know it is really your Baby's Own Soap, and it is because it is made of the perfume oils from all the wonderful things that the five Elves found all over the world that it smells so sweet and makes such heaps of fluffy creamy bubbles and helps little folk and big folk to grow as lovely as the day is long.

Let these 6 vital Salts rid you of PIMPLES

Would you like quickly to free yourself of those hideous pimples—those unsightly blotches—those things that smother and skin perfection? You've always envied?

Would you like to have eyes as dazzling and bright as your hair dancing in a summer's sun?

Would you like to enjoy glorious health with plenty of energy and possess a keen mind? Then take a quarter teaspoonful of Knuclean Salts in a glass of hot water every morning before breakfast! Knuclean is a combination of the six vital salts which your nerves, glands and body organs ought daily to receive from food if they're to function correctly and which are impossible to obtain in these days of modern cooking. Knuclean swiftly clears your blood of those harmful acids which cause your skin to erupt—you'll possess a skin like velvet and your health perfection you'll quickly realize!

Planning Bacon Plant For Saskatchewan

Equipment Has Been Secured and Foundation Stock Purchased

Recent press dispatches indicate that ambitious plans are under way for the establishment of a bacon curing plant in Saskatchewan. A Prince Edward Island syndicate has purchased a three-quarter section farm close to Long Lake, Strathburg, Sask., for the purpose of producing, raising, and slaughtering hogs, and curing and shipping bacon to England. It is stated that buildings capable of holding 5,000 hogs are being erected. The necessary machinery and equipment has been secured, and foundation stock of pure bred Yorkshire hogs has been purchased and shipped to Long Lake. It is expected this fall that 2,500 sides of Wiltshire bacon will be available for shipment.

A native of Denmark, thoroughly conversant with hog production and marketing as carried out in that country, has been placed in charge of the plant.

Sugar From Weeds

Scientists Find That Dandelions, Golden Rod and Other Plants Yield

Weeds like dandelions and golden rod contain these newly-discovered sugars valued by government chemists at \$50,000 a pound.

The Bureau of Standards in announcing this discovery recently, said that the new sugars were not previously known to science. They were found by Dr. R. F. Jackson, of the bureau and his assistant, Miss Emma McDonald, while studying the amount of levulose or fruit sugar that can be obtained from inulin. Inulin is a white starch-like substance found in the roots of golden rod, dandelions, Jerusalem artichokes, dahlias and chichory. Dr. Jackson found that inulin is 92 per cent. levulose, a sugar many times sweeter than ordinary cane or table sugar, three per cent. glucose, like corn sugar, and the remaining five per cent. is made up of the new triplets of the sugar family.

Enemies Of Communism

Campaign Against Small Land Owners Being Planned In Russia

The lowly, much despised Kulak, who is neither fish, flesh nor fowl in the Soviet republic, apparently is due for new troubles. A new campaign against all Kulaks, or small landowners, is being planned. According to correspondences published in Izvestia, it is proposed that every Kulak in the Soviet Union in future be registered with the police so that he will not be able to get jobs in government departments and must resort to manual labor or cease to exist. It is estimated that there are some 3,000,000 Kulaks in Russia at present. Recently it was discovered that many of them were pretending not to be Kulaks and were reaping rewards usually reserved for Soviet citizens of good standing.

Investigators also reported that these were enlisting themselves in government positions and taking every opportunity to commit sabotage. The new drive purposes to remove these outcasted persons from their jobs and relegate them to unimportant labor. Probably there is no class in Russia hated by the Soviets as much as the Kulaks, who were the revolution. Most of them suffered confiscation of property and loss of citizenship and thousands were exiled to the Arctic regions where they work in lumber camps and on road construction or do other menial labor. They are considered enemies of Communism and extermination of their class is looked upon by the government as one of its most important policies.

A Destructive Epidemic

Depression Made Worse By People Who Are Afraid

No medicine can cure fear, yet it is a destructive epidemic. Moreover, the most potent cause of the present depression is the fear which has taken possession of the minds of too many of our people. Following the stock market crash of about a year ago, much talk about hard times was heard and this talk inspired fear in the minds of the timid who immediately ceased to spend their money for anything except the bare necessities. In the meantime, production continued at a normal rate and this naturally resulted in over-production. Over-production made it necessary for factories to close down or to curtail to a serious extent, which threw more men out of work, and this in turn inspired greater fear in the minds of those who continued to be employed. At the present time, speculating on the available statistics, it appears that about one-tenth of our working population is unemployed. Nine-tenths of them are employed, probably half of them are frightened and, because of fear, are not spending their money. This depresses business further, and if the process continues on its course and is not reversed, demoralization must naturally follow.

—Brandon Sun.

Pine forests that were a rich source of amber once spread over northern Europe.

Quickly Ends Itch of ECZEMA

"GODDARD'S" ECZEMA CURE
"Only baby had a bad case of eczema. He'd been scratching and crying. His skin soon turned red and itchy. 'Goddard's' ends it all once. All druggists."

Vaccine For Common Colds

Report Of Interesting Experiments Being Conducted At Columbia University

Hope for a vaccine to prevent the common cold has been found at the Presbyterian hospital of Columbia University medical center.

The vaccine-making stage has been approached through use of an artificial cold produced in the laboratories—a real cold purified so as to be stripped of many uncertainties that ordinarily hinder the making of discoveries.

This work and the research leading up to it are described in a paper by Doctors A. B. Dochez, K. C. Mills, G. S. Shirley, and Yale Kneeland, Jr., in the Journal of the International Federation of Nurses. The research is financed by the Chemical Foundation, Inc.

At first real colds were given to chimpanzees until Dr. Dochez and his associates felt quite sure that no known ordinary bacteria cause colds, but that they only become aggravated active and often dangerous as a result of a virus which is the real cause.

The synthetic colds were produced by infecting the "chimps" with nasal washings completely purified of disease bacteria, and which presumably contained only the virus. Experiments of these synthetic infections produced in 50 per cent of the chimpanzees colds "exactly similar in all respects" to real colds. Tried on human beings the artificial cold performed with precisely the same percentage and effects.

"The experiments lead us to certain definite conclusions," says the paper. "The contagious cold in human beings is due to an invisible agent which passes readily through filters which hold back all ordinary bacteria, and, in all likelihood, belongs to the group of so-called sub-microscopic viruses."

"The next step in the investigation is to try to grow the virus of the common cold in the test tube outside the human body. Should this be successful, and there is already reason to think that it may be, the way will be opened for the preparation of a vaccine which may prove useful in prevention of common colds."

Must Renounce War Annually

Fact Needs To Be Imprinted On
People Every Year Says English
Novelist

Forsaking momentarily the subject of literature, John Galsworthy, English novelist and playwright, made an impassioned plea for world-wide and eternal peace before 2,000 persons at the Town Hall, New York. Speaking under the auspices of the League for Political Education, Mr. Galsworthy painted a picture of the next war in the darkest hues and declared that another one must not come.

As a step toward making peace a certainty, Mr. Galsworthy "ventured to suggest" that President Hoover proclaim the anniversary of the signing of the Kellogg Peace Pact as a national holiday and that attempts be made to have it a world holiday.

"The fact that war has been renounced needs to be impressed upon the people annually," the writer said. "The day needs to be observed in every country."

The next war, Mr. Galsworthy said, would be "merciless, and would not be confined to battlefields." There would be no civility, honor or glory, he said. "People would 'creep like rats in a drain pipe,' and there would be 'invisible flying shapes, rage, death and desolation.' To favor peace is to favor the continuance of civilization," he believed.

Mr. Galsworthy asserted that we need peace in order to have love and beauty, and described the effects of the World War on art, literature, sculpture and music. Art has been distorted since the war, he said, and life as it is expressed in literature is unreasonably grotesque. For this he held the war responsible.

Souvenirs Are Interesting

Dickens House, in England, Contains
Fine Collection Of Personal
Relics

Charles Dickens' last page-boy, Isaac Arncliffe, who was waiting on him on the night of his fatal stroke at Gadshill sixty years ago, passed just before his death, into the possession of the Dickens Fellowship, for perpetual preservation, some highly interesting personal gifts from the novelist and his family. These include the pen Dickens last used, which figures in Luke Fildes' historic painting "The Empty Chair," executed very soon after the great author's death. In it is also shown the inkstand; and both pen and inkstand now stand under the picture in Dickens House, 48 Doughty Street, Holborn. A fine collection of personal and literary relics is displayed in the rooms the novelist occupied in the earliest and happiest period of his married life, and where he wrote more than one great book. Dickens House is yearly visited by many literary pilgrims, particularly from the United States.

Reforestation Programme

Fifteen Thousand Planted Recently In
Logged Off Land In B.C.

Fifteen thousand two-year-old fir trees were planted recently on logged off land situated on the old International Timber claims near Campbell River, B.C., a thousand acres of which were reserved some time ago by the Provincial Government for reforestation purposes. The trees are from the Government's green timber nursery at Vancouver and are being systematically planted according to plans which have been formulated for some years.

Canada's Nickel Production

The nickel production of Canada constitutes about 90 per cent. of the world's output.

Aviators Face Danger In High Altitudes

No Place For Human Beings Says
U.S. Navy Climber

Crim perils lurk for those adventurers who aspire to the blue vault of the heavens.

"Humans don't belong up here," wrote the U.S. navy climber, Lieutenant Apollo Soucek, when his arm went numb and his goggles frosted over at 3,000 feet—still on the way up.

When Elinor Smith plunged downward five miles through the thickening atmosphere, unconscious and alone, says the New York Herald-Tribune, she narrowly escaped the fate that threatens all in the high altitudes.

For, however safe other aviation may become, every venture to the thin, frigid, ice-spangled, gale-swept No-Man's Land of the upper atmosphere, five or six miles high, is a venture under the wings of death.

The eyes freeze in the intense cold. The metal parts of the 'plane warp and jam. The engine sputters, gasps for air. The wind that sweeps around the world tosses the 'plane like a mote. But gravest of all is the heavy weariness of the body and spirit that comes with the rarefying air. A lethargic drowsiness palsies the hand of the pilot, sweeps consciousness from his brain. His frail craft hurtles downward in crazy circles to the land of the living or to death.

In July, 1923, Lieut. Carleton C. Champion, another U.S. navy flyer, lost consciousness at an altitude that registered 47,000 feet on his altimeter. He awoke to find his 'plane dropping like a plummet.

The engine blew up from its own terrific speed and heat, cylinder heads hurtled through the fuselage, one knocking the oxygen tube from his mouth. The 'plane was in flames.

Champion fought her four times and landed alive, with one instrument saved to tell of the record he had made.

British Rule In India

Says Britain Has Discharged Responsibilities Better Than Any Other
Nation Could Have Done

The British made and preserved India "and I, for one, believe that they have discharged their responsibility towards India better than any other nation would have done, and I think the Indians think so too," Sir Arthur Currie, principal of McGill University, declared in a speech before the Canadian Club at Montreal.

"All political parties in Great Britain are in agreement as to the propriety of granting India self-government and with that policy every Canadian must sympathize. All are not agreed as to whether India is yet ready for self-government. The right to govern must precede the right to self-government. My personal fear is that action may be too hasty."

"It is a matter, however, which primarily concerns Great Britain and the British Empire and India alone," Sir Arthur has just returned from a four months' visit to the Orient, during which he represented Canada at the inauguration of New Delhi, the capital of India.

Find the Woman

Mrs. Waite called unexpectedly at her husband's office and found that he had gone out for the day.

"You say Mr. Waite is out," she said to the new office boy. "Do you know where he has gone?"

"I don't know ma'am," replied the youth.

"How tiresome!" she went on. "Perhaps his secretary could tell me."

"She certainly could," shot back the office boy. "She's gone with him."

Projectiles To Cross Atlantic

German Plan To Use Rockets For
Half-Hour Trans-Atlantic Mail
Service

Half-hour trans-Atlantic mail service, with commercial rockets as the carriers.

That was the prediction discussed by G. E. Pendray, vice-president of the American Interplanetary Society, who has just returned after conferences in Germany with leaders of a similar society.

He said German scientists predict that in two years rockets powered by liquid fuel will fly across the ocean.

"When I left Germany a few weeks ago plans were completed for sending up the newest type rocket by liquid fuel," said Mr. Pendray. "German scientists working secretly on the rocket seem to have solved the basic problem of sending rockets soaring for miles into the sky by liquid power."

Our trouble here has been that the dry fuel now used does not yield sufficient power for the long flight."

The first rocket to go up, according to the plans learned by Mr. Pendray, will be gauged for an ascent of two miles. It will carry a barometer, a camera, and a radio transmitter, and will be shot back across the Atlantic over another course with a different cargo."

"The Germans have already charted the course from a field in Germany to a field in the vicinity of New York where the projectiles will land," said Mr. Pendray. "A parachute will be used for the landing. The same rocket will then be shot back across the Atlantic over another course with a different cargo."

Voices From The Past

Reparations Commission Hears Tales
Of Cruelties In German Prison
Camps

Exponents of the theory that it is a mistake to saddle the burden of war-guilt on Germany have also told us that the German people are an amiable and kindly folk whom it would be absurd to suspect of the barbarous outrages charged against their troops. Tales of outrages, they have said, were propaganda manufactured by the allied governments to inflame their own peoples and to discredit the enemy in the eyes of the world. Yet in a recent week, former members of the C.E.F. related to the Reparations Commission, sitting in Toronto, harrowing tales of barbaric inflictions upon them by guards in German prison camps. Unarmed Canadians were knocked about with rifle butts, forced to labor in the foul air of salt mines, had their teeth knocked out by brutal blows, were cut with bayonets, or hung by the wrists from the heated coals of a fire. There is no reason to doubt the truth of these stories told by men who bear the scars of their experiences. The idea that the German war lords were not real instigators of the war rests on no more secure foundation than does the suggestion that the rank and file of the enemy were mutually angelic. Time the great healer, has softened the horrors of the Great War with the passage of the years. It is not necessary that it should be allowed to distort the origin and conduct of the conflict.—Toronto Telegram.

Studying Business Conditions

Party Of British Capitalists Making
Tour Of Canada

A party of British capitalists, members of the Federation of British Industries, were among the passengers arriving at Quebec from England on the "Empress of France." They met Hon. H. H. Stevens, Minister of Trade and Commerce, in Montreal and will make a tour of Canada to study business conditions and opportunities. The party was composed of Col. Sir James Lithgow, Bart., Sir Arthur Duckham and Mair Mackenzie.

Hard On The "Journalist"

A few days ago an item appeared in a St. Joseph newspaper, evidently the work of a "journalist," and not of a reporter or newspaper man, that a young man of that city was fatally killed in a motor mishap that morning, and that the young lady who was with him was severely damaged."

Ocean Currents

To explain the 14 great ocean currents, such as the Gulf Stream and others, one scientist advances a theory that the sea water circulates through the centre of the earth by means of innumerable fissures reaching down from the ocean floor.

after PLAYTIME

GIVE them a play of Borden's Chocolate Malted Milk when they come in from school or play. Children love it, and so many a wise mother has discovered it is highly digestive and invaluable for building resistance against sickness.

A Marvellous Exhibition

Clear Television Pictures Are Produced
By Young Inventor

Television is approaching motion pictures in clearness of images it can reproduce.

A small group of spectators in the back room of a machine shop on the far west side of Chicago, looked at black and white pictures of nearby persons reproduced at the other end of the same room. The images on the receiving screen were two feet square and moved synchronously with motions of the person before the transmitting apparatus.

These "close-ups" were nearly as clear as movie films. Their producer, Ulysses A. Sanabria, said he believed they were the largest and clearest black and white effects yet shown through television to the public.

Harold Hayes, federal radio supervisor for the ninth district described them as "marvellous, the best he had seen in three years of watching the growth television."

Then the young inventor—he is 24—opened a bag of tricks.

He gave one of his assistants a figurative shave, manipulating the light rays thrown on his face until evidence of a heavy beard had been almost eliminated.

He threw such a tiny light on the subject that persons nearby could not discern his features, yet the keenly receiving set picked up the reflected rays and produced a clear view of the face.

Sanabria tinted faces and objects placed before the close-up lens. Green on the label of a water jar was clearly apparent. Other colours, also, were faintly tinted into the television image.

The color work was done with neon-mercury gas and the black and white pictures with helium gas turned into the special television lamp designed by Warren B. Taylor, collaborator with Sanabria. Neither claimed credit for developing color work in television but only the ability to achieve minor effects.

The work was done, however, with only one light channel for the three primary colors, red, blue and green.

"Colors in television are still in an embryonic stage," he said. "So is much of our work in sound effects. Many owners of radios fear their sets will be rendered obsolete by the immediate introduction of television. That is not true. Television will supplement the radio. Anyway, it has not yet reached a commercial stage of development."

Foreign Students In Paris

France has 15,000 foreign students in her various universities and colleges. The largest number come from Rumania and Poland, about 2,000 from each; more than a thousand each from Germany and Bulgaria; 700 from England; and 600 from Canada and the United States. There are about 450 Chinese.

Glasgow's dog population is dwindling as the result of the depression in Scotland.

Just a drop or two of Putnam's on any sore corn and out comes all the pain. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

W. N. U. 1888

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

There we stood before General Lu, waiting for him to speak. He did not speak. Scottie, bristling with anger and ready to fight, was at the drop of a hat. The interpreter scowled white, and myself anxious and worried for fear that General Lu would refuse to give us our pass to the Chinese front.

Fortunately General Lu was too great a man to bother much about dignity. Without even a word of comment on Scottie's absurd attack, he sat down and wrote quickly on a sheet of paper, to which he added a bright green seal. Five minutes later we left the palace with a pass that gave us freedom to go anywhere we pleased.

Early next morning we took off in our plane for Lih-ho—a little town in full progress. Soon we were in the country, below the ravages of war. Buildings were wrecked by shell-fire, bridges were down at the rivers, and the ground was so rough that we almost crashed at our first landing.

Leaving our plane well back from the front, we took a road leading up to the line. The air was damp and foggy, and the rumble of the guns seemed muffled under the heavy grey sky. Bullet-scared flocks of wild geese, and now and then a tree, with the wood from its hollow, showed the spite of high explosives.

Suddenly we noticed a group of soldiers, off duty, scrouped round a subject tied to a large branch of a tree. We heard a loud and complicated noise, and then a soldier, shouting enough to make your hair stand on end. To our horror, we found that the soldiers had caught a few of the enemy, and tied them up to a large branch of a tree. We heard a loud and complicated noise, and then a soldier, shouting enough to make your hair stand on end. To our horror, we found that the soldiers had caught a few of the enemy, and tied them up to a large branch of a tree.

Then the young inventor—he is 24—opened a bag of tricks. He gave one of his assistants a figurative shave, manipulating the light rays thrown on his face until evidence of a heavy beard had been almost eliminated.

He threw such a tiny light on the subject that persons nearby could not discern his features, yet the keenly receiving set picked up the reflected rays and produced a clear view of the face.

W. N. U. 1888

treatment too kindly, and began to whip her around, and automatic pistol in hand. Then I took out General Lu's pass. Luckily no one could read it—but I pointed to the bright green official seal and made gestures and faces that must have convinced those Chinese soldiers that the pass was genuine and that they must let us go.

"I had those prisoners into that house," I said to Scottie, pointing to a house which remained standing. In fact, it afterwards proved to be the headquarters of the Colonel in charge. Scottie needed no second invitation—with a force of soldiers he went to the house, and the Chinese, and they covered the distance in no time at all.

Several fired shots, and others ran toward the bayonets. I ran to the door. This was guarded by a soldier. He made a stab at me, but I dodged, so I bowed and turned back in time to see the soldiers rushing toward me. There was no time to think. Hiding behind a door, I hit each as he came, and he jumped over the sill, and scored two knock-outs.

Then as my eyes became accustomed to the gloom of the house, I looked more carefully, and discovered to my dismay that one man was an interpreter, and the other no less than the Colonel himself.

Fortunately the Colonel revived in a new moment, otherwise we would have been in a bad fix, as everyone was running, and I was shouting and yelling. Sitting up, he fairly screamed some orders in Chinese, instantly the soldiers came back. The Colonel turned to me. Quite suddenly he had the slightest idea what happened.

Wants Pirate Crew
Will Man Pirate Yacht With Sailors
Who Resemble Picturesque Tars

Of Buccaneer Days
A wealthy South American sportsman, Dr. Carlos Noel, whose private yacht in the form of a 15th century caravel is now nearing completion, has sent agents across the British and Normandy coasts to recruit a crew that looks as much like a pirate crew as possible.

The "Lazara" will soon be tested off Havre. The caravel will have large, spreading sails and upper decks like the ships of Columbus' fleet, but a modern 120-horsepower engine will be concealed in her hull.

The crew will be extremely picturesque, old Normandy and Breton sailors, who appear to have stepped out of picture books of buccanier days, long bearded, peg-legged, with gold-belts in their ears and worsted bonnets.

Douglas' Egyptian Liniment is unrivalled for speedy relief in muscular rheumatism, lame back, inflammation, burns and felons.

Practically all threatened strikes in Norway last year were settled by arbitration.

More than 220,000 men will be employed on Italy's public works project.

With the first fire protection patrol made, the war against the menace that annually threatens the forest resources of Saskatchewan is on. Construction work on the four radio-equipped lookout towers at Thunder Mountain, Fishing Lakes, Booman and Waskesieu is now underway and radio equipment for the stations has been purchased.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

Fewer Marriages Reported
The general depression has hit the marriage market. A preliminary survey made by the Dominion Bureau for March shows that in cities of 10,000 and over marriages numbered 1,556, a drop of 20 per cent. from March, 1930, when there were 2,001. The birth rate was also lower; the total being 7,436, as against 7,884.

Alberta Industries
The recent meeting in Calgary of the Alberta Branch of the Canadian Manufacturers Association showed more than \$101,000,000 invested in Alberta industries, with 12,500 employees drawing wages and salaries amounting to \$16,000,000.

Mr. W. T. Barber has been spending a few days in the City.

Mr. T. W. Shaw made a business trip to Edmonton the first of the week.

Mr. W. A. Gamble, teller in the local bank has returned after having had a three weeks' vacation.

Mr. J. W. Milburn has returned after spending the winter with his brother in Ontario.

The Women's Missionary Society will meet at the home of Mrs. Erickson on Thursday afternoon, May 21.

The Times Office has a supply of Nitro-Culture, for treating Sweet Clover and Alfalfa Seed. One 35c bottle treats 60 lbs. of seed.

Mr. J. W. Stuart is holding an auction sale at the Steele homestead northwest of Fabryan, at an early date. Watch for bills for further information.

Mr. Eve Chapell, who homesteaded the N. E. of Section 4-46-8-W4, some twenty years ago has returned to his land after living in Edmonton for a number of years.

Mrs. F. W. Higginson is in Edmonton this week attending the graduation exercises in which her son Eric Richardson is one of the successful graduates in the medical class.

Now is the time to get your home grown strawberry plants. Price per 100, \$3.00. Post paid—Irma Perennial Gardens, Irma, Alberta. 17-19P

Most of the early sown wheat is up and the recent hot weather has brought out the leaves on the trees. The soil is in fine shape for rapid growth but if the heavy winds continue moisture will be needed before long.

THriftiness is a state of mind that is nearly as valuable an asset as a bank account of its own.

And it's easy to tell thrifty people from the way in which they read the newspapers—just you can usually spot the other kind.

The great majority of men and women never put a newspaper down until they have read the important news which is directed to them through the advertisements.

The modern woman, especially finds the advertisements indispensable. She spends more than five-sixths of the family income. And the prosperity, happiness and health of her household frequently depend on her reading of the advertisements and on the wisdom with which she chooses everything she buys.

The advertisements bring you complete information about accepted products and new ones. Through them you can compare values . . . discover new ways and means for greater household efficiency and enjoyment . . . and make sure that every dollar spent will bring its full return.

POOR OLD DAD

Ye can scarce pick up a paper 'An its poet's corner greet, 'Cept ye'll see a purty poem

'Bout the mother saintly sweet; But ye'll have a time a-searching, Eyes will be aching bad

Ere ye'll overtake a poem At this time for poor old dad.

No, it isn't 'wilful in 'em, Those that write of mother dear, That there's never notice taken

Of her old man sitting near; No, it's never meant to slight him, But it looks a little bad

All the bouquets made for mother, Not a blossom for dear old dad, True, our mother watched above us

'Til her dear old eyes would ache; But old dad, he hummed to feed us 'Til his old back 'uld nearly break.

Mother crooned above the cradle, Gave devotion, all she had; Well, there wasn't any circus

At this time for poor old dad, Do not take one line from mother When you write the soul-sweet

song; But if there's a word for father Now and then, it won't be wrong; Poor old soul, he's bent and wrinkled

An' I know 'twould make him glad If, while you are praising mother, You'd say a word for Poor Old

Dad.
